NOTES: _____

DESCRIPTION

naturaLED® Emergency T8 Tubes acts as a regular T8 LED Light with emergency lighting capabilities. Our emergency T8 tube fits into an existing fluorescent lighting system which produces up to 2,000 lumens in regular mode and 500 lumens in emergency mode and allows 90-minutes of run time during emergency.

APPLICATIONS

Retails, restaurants, hospitalities, offices, schools

FEATURES

- For Damp Location
- UL924 Listed
- Color Temperature: 3CCT(3500/4000/5000K)
- Voltage: 120-277V
- Input Current: 0.1A
- Surge Protection: 2KV
- Power Factor: >0.9
- Beam Angle: 325°
- Non-dimmable
- CRI: >80
- Operating temperature: 32°F - 113°F
- Instant On/ Battery Backup
- Battery: Ternary Lithium Battery
- Base: Medium Bi-Pin G13 (fixture powered by hardwire)
- Emergency Run Time: >90min
- Length: 4-ft
- 5 Year Warranty
- 50,000 hrs rated average life / 300 Emergency Cycles
